

Interaction List (IL1_01)

Id	IL1_01
Title	Interaction List
Description	<p>The Local Government Interaction List (LGIL) is a list defining the type of interaction (publish information, make a payment, etc) supported by a resource. At its highest level LGIL corresponds with the interaction types used by the Best Value Performance Indicator (BVPI) 157 in measuring local authority e-enablement of services. Some interactions are further broken down to more accurately reflect detailed interactions. It is anticipated that the list will be further refined to support quite specific electronic interactions conducted through middleware using these standards. LGIL is provided as a 'scheme' for populating the e-GMS 'subject.interaction' element/refinement proposed by LAWs.</p> <p>XSD and RDFS schemas are subject to modification following definition of standards by the e-Government Unit Metadata Technical Working Group and the W3C taxonomy group. In the event of changes, we shall endeavour to support the formats given as legacy formats.</p>
